

How to Sign up for Electronic Table of Contents Alerts and or Corridor Alerts for the American Astronomical Society

How to sign up for Corridor Alerts

Step One: Go to any AAS Journal homepage on IOP Science. I have used the Astronomical Journal as an example: <https://iopscience.iop.org/journal/1538-3881>.

Step Two: Click on the link that says “Create or edit your corridor alerts” (circled in red below)

The screenshot shows the homepage of The Astronomical Journal on the IOP Science website. The browser address bar displays the URL <https://iopscience.iop.org/journal/1538-3881>. A navigation bar at the top contains links for Journals, Books, Publishing Support, and Login. The main content area features the journal title "THE ASTRONOMICAL JOURNAL" and a description: "The Astronomical Journal is an open access journal publishing original astronomical research, with an emphasis on significant scientific results derived from observations. Publications in AJ include descriptions of data capture, surveys, analysis techniques, astronomical interpretation, instrumentation, and software and computing." Below this, there is a "Remembering former AJ editor, Paul W. Hodge (1934–2019)" link and a "GOLD OPEN ACCESS FROM 1 JANUARY 2022" notice. A "Submit an article" button is visible, and a red circle highlights the "Create or edit your corridor alerts" link. The page also displays the 2021 Impact Factor of 5.491 and a list of "Latest articles". On the right side, there is a "JOURNAL LINKS" section with various links and an "AAS PUBLICATIONS" section listing other journals.

Step Three: Login to IOP Science or create an account

Step Four: Once you login, the below screen will be generated. Simply check any and all corridors or journals you would like to receive notifications for and then hit “create alert”

THE ASTRONOMICAL JOURNAL

Corridor alerts

Receive alerts on all new research papers in American Astronomical Society (AAS) journals as soon as they are published. Select your desired journals and corridors below. You will need to select a minimum of one corridor.

Corridors	Journals
<input type="checkbox"/> All corridors	<input type="checkbox"/> The Astrophysical Journal
<input type="checkbox"/> Galaxies and Cosmology	<input checked="" type="checkbox"/> The Astronomical Journal
<input type="checkbox"/> Interstellar Matter and the Local Universe	<input type="checkbox"/> The Astrophysical Journal Supplement Series
<input type="checkbox"/> High-Energy Phenomena and Fundamental Physics	<input type="checkbox"/> The Astrophysical Journal Letters
<input type="checkbox"/> Stars and Stellar Physics	<input type="checkbox"/> Research Notes of the AAS
<input type="checkbox"/> The Solar System, Exoplanets, and Astrobiology	
<input type="checkbox"/> The Sun and the Heliosphere	
<input type="checkbox"/> Laboratory Astrophysics, Instrumentation, Software, and Data	

Please note, The Planetary Science Journal (PSJ) does not currently use the corridors.

[Create alert](#)

Please note: when you select a journal, you will receive a warning that this will override any pre-existing corridor alerts you have already enabled (screenshot below).

Journals

The Astrophysical Journal

Warning: This may override any pre-existing corridor alerts you have already enabled for this journal.

The Astronomical Journal
